

# Do What You Will

Big Wreck

Let em out  
Let em out of the cage  
And ease some pain  
So you do what you will  
Do what you will with the pain  
Tomorrow brings, oh yeah

This world becomes alive  
When all else fails, I won't  
Even though it isn't right  
Have you ever been surprised?  
Hit the brakes at the speed of light  
Now we know just what's unwise

Let em out  
Let em out of the cage  
And ease some pain, oh yeah  
So you do what you will  
Do what you will with the pain  
Tomorrow brings, oh yeah

I found this mess again  
Immediately on my own  
Gonna give you one more try  
How you ever wondered why  
You never speed along?  
Cause Ill only make you cry

Let em out  
Let em out of the cage  
And ease some pain, oh yeah  
So you do what you will  
Do what you will with the pain  
Tomorrow brings, oh yeah

Do whatever you think's right  
Out of sight and outta my mind  
Open up the flood gates wide  
Think it's time we left tonight

That was right before I found light  
God I gave them quite a sight  
I'll sing another chorus and cry  
God I fell  
The passion torn

Let em out  
Let em out of the cage  
And ease some pain, oh yeah  
So you do what you will  
Do what you will with the pain  
Tomorrow brings, oh yeah

Do what you will  
Do what you will  
Do what you will  
Do what you will

Do what you will  
You will
