

## The Oaf

## Big Wreck

Who'd you drag around my door if I  
Keep it cracked they won't be here no more  
Who'd you leave along the way  
Leave 'em there don't come back today

Now who's the one who treats you right  
Yeah leave him there don't come back to fight  
Now who's the lad who wants to be  
It never was and it just can't be me

My luck is wasted  
I'm on the run somewhere  
My luck is wasted  
I'm on the run somewhere

Throw the rocks and break the glass  
I'll get down on my knees and kiss your ass  
'Cause you're the one to be in my dreams  
It never was It isn't what it seems

My luck is wasted  
I'm on the run somewhere  
My luck is wasted  
I'm on the run somewhere

Now who's the dragon at my door  
Well I shot it now, it don't come back no more

Gonna fire up someday  
My luck is wasted  
I'm on the run somewhere  
Feel my hand wrapped around  
My luck is wasted  
I'm on the run somewhere
