So I make you happy And I make you sick Forget the traffic I'm used to all of it

It's no fair to say
I'm only taking what I need

Don't feel so snappy
I don't give a shit
Forgive the traffic
I'm used to all of it

It's no fair to say
I'm only taking what I need
What I need
OK I fess up to the pleasure and the greed

I'm always over at your place And I'm licking your hmmm hmmm You should be over at mine Licking my wounds

I'm always over at your place And I'm licking your hmmm hmmm You should be over at mine Licking my wounds

You're used to all of this
What I need
It's no fair to say
I'm only taking what I need
What I need
OK I fess up to the pleasure and the greed

What I need
Pleasure and the greed
The pleasure and the greed
Pleasure and the greed
