

Love Sustained

Bill Miller

Did you leave behind the tangled mess
Hide the lies you won't confess
Leave behind the dreams that didn't come true

Did you cover up your battle scars
Are you back at home have you gone too far
Are you on the edge or have you fallen off

I'm not complaining of this life that I've known
Led me down some long dark roads
I'm still sustained in all this love that you showed me
So many years ago

Yes I was a frightened soul
When the madness came and took control
Somehow we survived we made it through

So many thing I can't explain
Washed me in a dessert rain
Hold me in your arms the way you used to do

I'm not complaining of this life that I've known
Led me down some long dark roads
I'm still sustained in all this love that you showed me
So many years ago
