

Come Back When You Can Stay Forever

Billie Jo Spears

Im an open door you keep walkin through
With all my love Ive let you have your way.
But I just cant go on loving off and on with you,
Ive taken all the leaving I can take.

Come back
When you can stay forever,
Do all your leaving while youre gone.
Come back
When you can stay forever,
Loves not really love unless it lasts that long.

We must look at love from different points of view
And I just cant pretend it isnt so.

But one day you may need from me what I need from you
And when you do youll never want to go.

Come back
When you can stay forever,
Do all your leaving while youre gone.
Come back
When you can stay forever,
Loves not really love unless it lasts that long.

Come back
When you can stay forever,
Loves not really love unless it lasts that long.
