

# Something Deep Inside

Billie Piper

C'mon c'mon  
Something deep inside

The first time that it crossed my mind  
I kept on pushin' it aside  
It's such a strong emotion  
Second time was plain to see  
This feeling rushing over me  
Oh yeah...

And unknown to me (unknown to me)  
This chemistry is

Something deep inside

I can feel but I can't touch  
Can never get too much  
I hear you loud and clear  
I've got nothing to fear  
Your love will be my guide  
I've never been this satisfied  
It's something deep inside

C'mon c'mon

The third time was just as sweet  
Boy you make my life complete  
Every thought and motion  
It's hard just telling you  
Everything I feel is true  
Oh yeah...

And unknown to me (unknown to me)  
This chemistry is  
Something deep inside

I can feel but I can't touch  
Can never get too much  
I hear you loud and clear  
I've got nothing to fear  
Your love will be my guide  
I've never been this satisfied  
It's something deep inside

C'mon c'mon

It's crossed my mind  
It's crossed my mind

So if you follow emotion  
The love and devotion you'll find

I can feel but I can't touch  
Can never get too much  
I hear you loud and clear  
I've got nothing to fear  
Your love will be my guide

I've never been this satisfied  
It's something deep inside
