

# Supernatural

Billy Crawford

Feeling all alone girl, when you're not around  
It's driving me crazy that you're not in this town  
There ain't no stopping me but it's breaking me down  
I know my heart would love to find someone that he found  
Every day, every dream,  
You, my love for you is mean  
Believe me 'cos I want you to know

Chorus:

All I wanna do is just be with you,  
Ain't nothing in this world could  
compare to you my love  
All I wanna say,  
There's no need for fuss and fight  
Baby everything's all right,  
Baby my love for you is supernatural

It really makes a difference that you're not around  
I see your reflection all over this town  
Now I really all need you and it's killing me inside  
I know my heart would love to find someone that he found  
Every day, every dream  
You my love for you is mean  
Believe me 'cos I want you to know

Chorus repeats...
