

You Got It

Billy Crawford

Sing it
Yeah

You don't wanna wake up
In the morning
You don't wanna be singin'
That same old song
So you gotta stand up
You have to time in right
Things get easier
when you spread your wings and

Chorus:

You want it
You need it
You crave it
Believe it
You got it

You want it
You need it it
You crave it
Believe it
You got it

So you wanna be a star
Like in the movies
Everybody's got dreams to satisfy
But you gotta be smart
And take your most free time
Never underestimate
Oh no

Chorus (2x)

Everybody get a good vibration
It won't hurt you if you try
Cause the ticket to your destination
Comes from deep inside

Chorus (2x)

You want it
You need it
You crave it
Believe it

You want it
You need it
You crave it
Believ eit

You want it
You need it
You crave it
Believe it
