

I Want Cha' Baby

Billy Paul

I want 'cha baby
I need your body close to mine
I want 'cha baby
Can't you see it in my eyes

Come on and love me girl (Love me girl)
Just love me girl
(Just love me baby)
Let's go into another world
Just love me girl

I want 'cha baby
See, my blood is runnin' hot
I want 'cha baby
Girl, please don't make me stop

Come on and love me girl (Love me girl)
Just love me girl
(Just love me baby)
Let's go into another world
Just love me girl

When you walk across the floor
Girl, you really, really, really, really carry me on home
And this love I feel
It's gettin' stronger and stronger and stronger
Put down whatcha doin'
And come on, come on, come on over here
'Cause right now, your love, your love
The only love I need

I want 'cha baby
Can you feel it in me?
I want 'cha baby
Come on, come on satisfy me

Come on and love me girl (Love me girl)
Just love me girl
(Won't you love me baby)
Let's go into another world
Love me girl

Little girl let's turn the lights down soft
Or better yet, let's burn some candles
And mellow our vibes
Let's tune into each other
'Cause this is how bad I want 'cha baby
