

I'm American

Billy Ray Cyrus

One red line in our home town
Knew everybody for miles around
This country made me who I am
I thank god I'm American

Oh, I'm American
Red, white and blue
I'm American
From my head down to my boots

Mama's in the kitchen, supper's almost done
Daddy on the front porch looking at my gun
Raise me up, do what I can
Proud as hell, I'm American

Oh, I'm American
Red, white and blue
I'm American
From my head down to my boots

I'm American
I'm American

Oh, I'm American
Red, white and blue
I'm American, oh yea

I was just a boy, you see
Won't forget what was taught to me
Freedom and free you can't deny
Don't forget those who sacrifice

Oh, if you're American
(If you're American)
Red, white and blue
Oh, I'm American
From my head down to my boots
(From my head down to my boots)
I'm American

From my head down to my boots
I'm American
(I'm American)
Red, white and blue
(Red, white and blue)

Oh, oh
(From my head down to my boots)
I'm American, I'm American
I'm American, I'm American
Red, white and blue
