

I Wonder

Billy Ray Cyrus

Oh I wonder where you are
Are you near or are you far
Are you lookin' at the same ole man as me
Are you alone tonight
Are you safe and warm by a candle light
Oh I wonder... Oh I wonder...

In another place and time
Could you have been only mine
To have and to hold...
And cherish your whole life through
Was it just not meant to be
A sad romance... a tragedy
Oh I wonder... Oh I wonder...

Now I walk these streets alone
Without your hand to hold
And I look into the sky and call your name
Well if the world came to an end
And I never saw you again
Oh I wonder... Oh I wonder...
Oh I wonder... Oh I wonder...
