

Lonely Wins

Billy Ray Cyrus

The rain keeps fallin' down
The world keeps on spinnin' 'round
The grass grows and the sky's still just as blue
Our address still has your name
But nothing out there feels the same
Lonely wins every time without you...

I still drink my coffee black
I still wear that same ole hat
That one you gave me back in 1992
But when I wear it I seldom smile
I take it off and think of you a while
Lonely wins every time what will I do...

Lonely wins every time...
Lonely wins every time...
Without you...

I still get your picture down
The one of you on that merry-go-round
What a day we had... just us two...
I guess it was at the county fair
I won you that big ole teddy bear
That's the first time we said.. I love you...

Lonely wins every time...
Lonely wins every time...
Without you...
