

The Past

Billy Ray Cyrus

Back when I was young
When I was just a kid
The foolish things we done
The secrets that we hid

Out on our playground
Where I first touched your lips
Our first taste of love
Upon our fingertips

Now, I go back in time
To a place they call the past
Where dreams are made believe
And love can really last

Sometimes, it's all so real
And it's always way too fast
This crazy world we live in
The past

Now, I go back in time
To a place they call the past
Where dreams are made believe
And love can really last

Sometimes, it's all so real
And it's always way too fast
This crazy world we live in
The past
