

You Good

Billy Ray Cyrus

You good?
Do you ever sit alone?
Staring at your phone
I bet misunderstood
You good?
Just a question that I ask
When I think of moving past
Or at least I know I should
You good?
Hmm, you good?
You good?
Is it times times pain
Call it just a phase
Stand the ground you used to
You good?
You good?
You good?
Hmm you good?

You good?
Do you ever think of me?
The way things used to be
Would you come back if you could?
You good?
Just a question that I ask
When I think of moving past
Well at least I know I should
You good?
