

## In Your Eyes

Billy Squier

Never was a man to make a name on promises  
Never felt the urge to stake a claim  
'Till I looked in your eyes...I've never really known  
(In your eyes)the meanin' of it all  
In your eyes I answer to the call  
I been taken by the magic after all

Walkin' in the shadow of the names...relationships gone by  
Thinkin' 'bout the plot that never changed  
'Till I looked in your eyes...I've never really known  
In your eyes, your thoughts I call my own  
See your eyes shine on me as we go  
So they lead me as we're windin' down the road

We can make it so fine  
Take it time after time  
Make it open wide  
We go side by side

Always felt the loser, outa place...good luck would pass me by  
Never knew the meanin' to the chase  
'Till I looked in your eyes...I've lost but now I know  
In your eyes I've found my chaperone  
Special eyes--they touch the afterglow  
They can make me see the logic of it all  
We can make it so fine
