Looks Like a Cold, Cold Winter

Bing Crosby

Looks like a cold, cold winter Plenty of ice & snow But we'll keep the love light in our hearts aglow

Looks like a long, long winter Baby what do we care As long as we have this love of ours to share It's gonna be cold outside It's gonna be warm inside So we'll cuddle up by a cozy fire side by side

Looks like a cold, cold winter Summer is far away Until then I'll love you more & more each day Gonna keep you warm until winter goes away
