

Killing to Be Free

Biohazard

It's time we come together to fight and survive
Overthrow the controlling forces, the greed and the lies

Realize if this shit don't stop we're all gonna die
Come to our senses and recognize
The truth inside the lies

It's time we separate the brave men from the cowards
Unafraid to fight and die, freedom will be ours

Realize if this shit don't stop we're all gonna die
Come to our senses and recognize
The truth inside the lies

Spit it in my face, don't look me in the eye, do what's good for me
Life to my face while so many die, killing to be free

It's time we force the leaders to tell the truth or die
Admit their reckless engagement or pay the final price

Realize if this shit don't stop we're all gonna die
Come to our senses and recognize
The truth inside the lies
