

LONELY

Bishop Briggs

Lights on, clothes off
Naked in the past that we left
Lights on because
Breaking up with you was not a trick to come back

Now you're calling, begging, crying
Wanting it to be okay
Lessons, learning, growing, falling
Back into your arms again

You, you know
You, you know
You, you know
You, you know

Every little thing to try and get me back
Pleasing all my questions just so I forget
I never felt as lonely as with you
I was lonely
I was lonely
I was lonely
I never felt as lonely as with you

I moved too fast
Power tripping, karma's biting me back
It's true, too bad, so sad
Now you're calling, begging, crying
Wanting it to be okay
Lessons, learning, growing, falling
Back into your arms again

You, you know
You, you know
You, you know
You, you know

Every little thing to try and get me back
Pleasing all my questions just so I forget
I never felt as lonely as with you

I was lonely
I was lonely
I was lonely
I never felt as lonely as with you

I was lonely
I was lonely
I was lonely
I never felt as lonely as with you
I was lonely
I was lonely
I was lonely
I never felt as lonely as with you
And you know that too
