

## Excuse For Escape

**Bitch Alert**

Just one excuse  
Is all i need  
To drop this case again  
To hide from you again  
Violence will do it for you will do it for you

You make me so scared of myself  
This time i feel that i could kill someone kill someone (you)

Just one excuse  
To escape from you  
To drop this case again  
To loose from you again  
Violence will do it for you will do it for you

You make me so scared of myself  
This time i feel that i could kill someone kill someone  
You make me so scared of myself  
This time i feel that i could crash into your crash into your  
Mind

Then you  
You don't feel anything  
You don't feel anything  
You don't feel anything  
You don't feel anything

You make me so scared of myself  
This time i feel that i could kill someone kill someone  
You make me so scared of myself  
This time i feel that i could crash into your crash into your  
Mind
