

Last Song

Biting Elbows

My dear I can't stand the sound
Of you running around
Running around town
I hear voices telling me
That I've got to be
Oh so damn angry
But that ain't me no
Lights go out in the skyscraper
Your words caress me like sandpaper
We had reasons all of them clear
You grip my hand as you disappear

Love fire
Forgive the flame
I fell the same way that you always do
Love fire
Forgive the flame
For I can't help it all from being true

I loved your every minute you were here
But that ends now
I searched all over for you baby
But you know that ends now
I could forgive you for a lot of things
But it's too late now
We gotta get out
We gotta get out
We gotta get out somehow
We don't have to kill each other
We could always look for another
Every time I overheard her
The only thing on my mind was murder

Love fire
Forgive the flame
I fell the same way that you always do
Love fire
Forgive the flame
For I can't help it all from being true

We're not gonna make it through
True
We're not gonna make it through
True

One day with our patience depleted
You'll look at me as we stand defeated
No struggle to see just where we went wrong
I'll hold your body as it dances it's last song

Love fire
Forgive the flame
Love fire
Forgive the flame
Love fire
Forgive the flame
Love fire

Forgive the flame
Forgive the flame
Forgive the flame
Forgive her
Forgive the flame
Forgive the flame
Forgive her
