

Love Song

Biting Elbows

I want her to want me
And if she does it's on
The heart weighs a ton to me

Ah-aah-aah-a-a-a-h
Ah-aah-aah-a-a-a-h

Shake a stick
She's so thin
Smoky eyes want to begin
She says that she knows
How could you know
I want you to
Feel like you
Can tell me anything that you want to
Just a one off
Won't be enough
Is it love you mind
The kind that isn't very kind

How does it feel when you're here
Cold and lonely
How does it feel when you're near
Time moves slowly

Don't second guess
I can feel you thinking
About rethinking
Don't hesitate
When you want someone
'Cos they might not wait

How does it feel when you're here
Cold and lonely
How does it feel when you're near
Time moves slowly

No one's around to cheer
I've had so many friends
And I watched them disappear
Now your days aren't so sweet
One song plays on repeat
One song plays on repeat
I cancel food and cancel sleep

How does it feel when you're here
Cold and lonely
How does it feel when you're near
Time moves slowly
