

# My Woman

## Biting Elbows

Let the police come and smoke the stage  
We're getting restless now and can no longer wait  
And I know, I know, that you know for sure  
What it is, you are having me in door

Take another step and then engage  
Nobody here wants to die of old age  
At least from now, while we're young and dumb  
In a few years what will we become  
Fuck me, it doesn't matter

I cannot live like this  
I cannot fucking live like this!

My woman!  
My woman!  
I can't live without my woman!  
To live a lie  
that's alright  
I'll be there to the end of time!  
The end of time...

Nothing so pure, I know we two've been sold  
My mental building up before it feels to blow  
We've got it right, nobody has the right  
to stay in one place this long without a fight

The lights are dimming and the future is at hold  
I look for silver, while I'm lying in bed with gold  
I said fuck me, it doesn't matter

I cannot live like this  
I cannot fucking live like this!

My woman!  
My woman!  
I can't live without my woman!  
To live a lie  
that's alright  
I'll be there to the end of time!  
The end of time...

I'm ready to sell my soul  
Tell me a story for my rock and roll  
Give me a strenght to give it hope  
Leave me alone long before I drop

She needs me tooo  
She needs me sooo  
She needs me sooo  
She needs me  
She needs me  
She needs me  
She needs me too
