

Get Ya, Get Ya

Bizzy Bone

Yeah, yeah, yeah, yeah
Roll that blunt (yeah)
Give me another toke homie
We ridin, pimp

Ooh, I guess they don't know, I'm finna call up David
And we marchin on them quickly to the South Pole
So what they wanna do with us? Uh, finna get'cha get'cha
Uh, finna get'cha get'cha get'cha get'cha

Lord, crush they numbers daddies eyes can see
I know Jesus carry me, he ever need me I'm there verily
I love the Virgin Mary, Mexican food, without the children
or the child shall lead to mommy, daddy love me I'm chillin
Bless the world if it's possible, I cry on my knees
Praise the Lord, God almighty the creator of all lightning
Ass booty and cattle, blood stop, I'm feelin the brain waves rattlin
Tryna stop what we got, ain't seen no cops come
Stone cold producer, bad to the bone, I ain't no sell out
Better leave him alone, I'll clear this bitch out
Shut the fuck up out of they pencil walls and then shake that dust
Fuck the lust, non-physical, now they got me in cuffs - one love

Deep in the mind where they question me, what do you want to know?
I don't know nothing, but I heard that legend tellin me take it slow
Finna be, within the body this is a blessin
better get rid of whatever you need
You better go get it remember to plant that seed
While I'm dead holdin the microphone, closer to the spirit
Clearly I get that jealousy somehow I just don't fear it
I blame nothin and it's surrounded, we're surrounded and trapped
Come up off that bullshit, pulpit, feelin the fact
Everywhere we lack, in the battlefield the shit like that
Baby we serious and I'm not curious, you tell 'em to watch that
Ideologies remember scientologies, isn't it bloody enough?
Fuck it, we are the soldiers in the rucket rough
Runnin from the spiritual po-po
Don't act like you don't know though cause I don't know either
So y'all relax and take a breather, drink a liter then roll
We gotta, we gotta find somewhere to leave for our souls

I call up my uncle let me cop some fuckin Mary Jane
We been out here grindin steadily climbin each and every day
Fucker don't test us come and arrest us, show me how we play
Feelin me with the spirit, fight you back like I was anime
Quick to have a baby sick as fuck and jump right on the stage
Comin up out that limo pockets swollen payin attention to everything I say
Open up my mind with a prayer, as I worship the Lord Jesus
The Dragon Slayer verily, verily I'm reborn
Tarnished and torn, burnin up I'm feelin scorned
It's gettin warm I'm tellin 'em turn it up, turn it up, turn it up
Tarnished and torn, burnin up I'm feelin scorned
It's gettin warm I'm tellin 'em turn it up, turn it up, turn it up
Don't burn...
