

# Nobody Can Stop Me

Bizzy Bone

What are you goin' through? What are you goin' through?  
If you only knew, if only you knew  
What are you goin' through? What are you goin' through?  
If you only knew  
(Nobody can stop me Damn)  
Nobody can stop me, now Nobody can stop me, now  
What are you goin' through? What are you goin' through?  
If you only knew  
(Nobody can stop me)  
What are you goin' through? What are you goin' through?  
If you only knew, if you only knew.

Look at my sister sadden when my baby's mammy  
Like she can't stand me  
Say family be the first to turn so pity (?)  
Filamina, my granny, celebrate the grammy damn  
Nobody knew no plannin' was so perfect  
Rollin' my (?), never forget the Bones  
Trippin' on foster homes  
Sayin' I wasn't manly with a scarred up soul  
Why can't my skeletons understand me  
What if I said I was molested  
Would you look at me peel,  
But I keep on bailin  
And I hope I don't go to hell, stressed I will  
Can I sell my bio? I was born in Ohio  
Already on trial  
Cause Pops said I looked too light, but mom 's just white  
But I still had your smile  
And look at me now gotta be proud of myself  
Ain't nobody else soundin' so worried about my health  
And all the while takin' care of my kids  
How would they live  
If I ain't hustlin', strugglin', (trustin') still keepin' Jesus a part of  
solution  
He gives life in the lungs  
Breath through tongue  
Now here it comes  
Now, here it comes; and here we go

Nobody can stop me, now Nobody can stop me, now  
Nobody can stop me, now Nobody can stop me, now  
If only you knew  
What am I goin' through, goin' through, goin' through?

And my mama took plenty beatings  
Now in her third damn marriage and man  
Actin' like he cares apparently 'till you perish  
But I was always there for you  
Even though you let me leave he's beatin the shit outta me, too  
Probably why I got my bodyguards  
And I'm in charge  
Watch me sleep the pay is meek  
But stay with me  
And keep my heart collateral, we'll never break apart  
Y'all didn't see me with Eazy, as a child of god  
With the underdog

Never applaud once you reminisce through the ball  
Movin' in Heaven's movie  
Y'all, think of all that fucked-up shit you saw  
Only if you knew what I was goin' through

What am I goin' through, goin' through, goin' through?  
If only you knew  
Nobody can stop me, now nobody can stop me, now  
Nobody can stop me, now nobody can stop me, now  
If only you knew  
What am I goin' through, goin' through, goin' through?

Flashback to may and with the weight of the world  
Can't stop my girl from steppin  
Lookin' for affection in wrong places  
My lesson be learned world turns  
The early bird gets the worm  
What if it's rotten while you rushin' for love and get burned?  
Five kids and that's my only concern  
I was a father before I became a man society don't comprehend  
Callin' me worthless but I could purchase what they purchase  
But I understand behind closed curtains you workin' on being a man  
Death scares me  
But Jesus will prepare me  
And hopefully repair me  
As god would want him to, really really  
Ghetto media see the thug  
Watch your sins  
Then it's true you can be born again.

What am I goin' through, goin' through, goin' through?  
Nobody can stop me, now Nobody can stop me, now  
Nobody can stop me, now Nobody can stop me, now
