Common Man

Black Country Communion

Lord won't you help me
Make it through the night?
No one can hear me
Lead me to the light
You are the reason
I am here today
Love is the answer
Take me far away

On my own I'm no better than All alone
I'm a common man

Where are you brother?

I'm feelin' kinda low

Sister and mother

I want to let you know

Can't break the chain

It comes from deep within

Live through the pain

That's underneath my skin

On my own I'm no better than All alone
I'm a common man

Called by the Siren
Down by the sea
Ghost in the distance
It's callin' me
You are the reason
I am here today
Love is the answer
Take me far away

On my own I'm no better than All alone
I'm a common man

On my way
I will all I can
I will stay
Just a common man
