

Wanderlust

Black Country Communion

Oh when I come around
I'll still be callin' you
I walk on holy ground
I will be failin' too
Lord won't you let me be
The Lion will roar
Lost in the alchemy
Right to the core

Here in the Sun
In the dawn
I begin to follow
Fear, it has gone
I was born
I don't feel so hollow
Long in my past
I was cast
Leave it in the dust
Strong, Everlast
Through the glass
In my Wanderlust

I wanna make a fuss
Don't rush away your fate
I'm on a midnight bus
Down to the Goldengate
Oh, yes, I am

You got my belief
Now look at my face
You see by the grief
The long last embrace

Here in the Sun
In the dawn
I begin to follow
Fear, it has gone
I was born
I don't feel so hollow
Long in my past
I was cast
Leave it in the dust
Strong, Everlast
Through the glass
In my Wanderlust

Another World I see
Now it don't feel the same
Oh, and I want to be free
Don't put me in the flame

Lord won't you let me be
The Lion will roar
Lost in the alchemy
Right to the core

Here in the Sun

In the dawn
I begin to follow
Fear, it has gone
I was born
I don't feel so hollow
Long in my past
I was cast
Leave it in the dust
Strong, Everlast
Through the glass
In my Wanderlust

Here in the Sun
In the dawn
I begin to follow
Fear, it has gone
I was born
I don't feel so hollow
Long in my past
I was cast
Leave it in the dust
Strong, Everlast
Through the glass
In my Wanderlust
