Forever Down

Black Label Society

Take a look inside the warped and the sick Forever born again just to die so quick The floodgates of the damned Shall crash and burn once again Nuclear obsession the fall of the weak Atomic demolition destroy all you seek The flood gates of the damned Shall crash and burn once again

Down down down Forever down

Terrified reflections that rip through the sky
Apocalyptic birth the screams and the cries
Floodgates of the damned
Shall crash and burn once again
The reverend of the grave, the mother of the end
The wings of the bastard shall spread once again
