

Shine

Black Majesty

I can't get the sleep while laying in this bed
may the storm I'm so cold
Look into my past, this room is very vast
I'm alone so alone
I need you shine light,
shine light on me, just to guide me through the darkest time
shine light on me like a candle in the window
shine light on me can you shelter me tonight
and then I'll trust you always shine a light

Will I ever rest still tryin my very best
take a whole on my own
the prison never last this future seem so far
I'm so tired and alone

Well I am shine light, shine light on me
just to guide me through the darkest time
shine light on me like a candle in the window
shine light on me can you shelter me tonight
and then I'll trust you always shine a light

Shine light on me
just to guide me through the darkest time
shine light on me like a candle in the window
shine light on me can you shelter me tonight
and then I'll trust you always shine a light

Shine light on me
just to guide me through the darkest time
shine light on me like a candle in the window
shine light on me can you shelter me tonight
and then I'll trust you always shine a light
