

## Night Lover

Black River

The woman smiles  
We could be together  
Keep on holding you  
Back in your arms

When you have a broken heart...  
And this is my fault...

Can't you reach out for... me?  
Do you really want to feel?

One night - I don't know how...  
One girl - I don't know the name...  
I didn't ask her name (again)  
And she didn't know mine  
It was only once, without names...  
I don't remember cause I was drunk

One night - I don't know how...  
One girl - I don't know the name...  
I didn't ask her name (again)  
And she didn't know mine  
It was only once,  
I don't remember which night and where...

You see it's all real  
Yes, I've cheated on you again  
Cause I can't love strong  
I can't breathe  
Be together  
Always, forever

One night - I don't know how...  
One girl - I don't know the name...  
I didn't ask her name (again)  
And she didn't know mine as well  
It was only once, one night, without names...
