

# Give Me a Chance

Black Tide

Have you ever felt this way before (Felt this way)  
Pushed to be someone you don't know  
I don't know

I've never felt this way before (Felt this way)  
Pushed to be someone I don't know  
You're telling lies all the time (Another part of this pointles  
s game)  
I don't wanna be part of your lie

Give me a chance and you'll know (Who I wanna be)  
Give me a chance to figure it out (Who I am)

I've told you what I have to say (I've told you)  
You never listened and you pushed me away  
You're telling lies all the time (Another part of this pointles  
s game)  
I don't wanna be part of your lie

Give me a chance and you'll know (Who I wanna be)  
Give me a chance to figure it out (Who I am)  
Give me a chance and you'll know (Who I wanna be)  
Give me a chance to figure it out (Who I am)

(Now) Just give me my life back  
(So) I'm taking it back now  
(No) You never will take me in vein

I've told you what I have to say (I've told you)  
You never listened and you pushed me away

Give me a chance and you'll know (Who I wanna be)  
Give me a chance to figure it out (Who I am)  
Give me a chance and you'll know (Who I wanna be)  
Give me a chance to figure it out (Who I am)
