

Let Me

Black Tide

Are you the one that I've been looking for
All along
I can't wait any longer
I don't have much time
Please tell me now

Let me have you
Let me touch you
Let me get inside

Let me have you
Let me touch you
Let me get inside

Your skin
Your exquisite flesh
Your sweat
Drips down your neck
Please tell me one day you'll be mine
All mine

The heat from your body drives me insane
And I doubt that I can stand much longer
When I'm around you my whole body aches
And when I see your face everything else just looks fake

Let me have you
Let me touch you
Let me get inside

Let me have you
Let me touch you
Let me get inside

Let me have you
Let me touch you
Let me get inside
Yeah

How much longer must I wait
How much longer will I crave
How much longer can I stand you
I'm trapped in this Hell

Are you the one that I've been looking for
All along
I can't wait any longer
I don't have much time
Please tell me now

Let me have you
Let me touch you
Let me get inside

Let me have you
Let me touch you
Let me get inside

Let me have you
Let me touch you
Let me get inside
