

## Faith

Blackalicious

Never let life's troubles block your flow  
Have faith, and get where you're trying to go  
Like a winding river in search of the ocean  
You must keep your faith in motion  
Never let doubt block faith though  
If you want to get where you're trying to go  
Up and down or spinning 'round  
You gotta keep faith flowing if you want to be around  
Crying and whining won't get you through  
Your greatest power in all you see, say, and do  
Is keep deep faith
