

# I Feel Bad

Blackbear

(I feel bad)  
(I don't feel good)  
(I feel bad)  
(I don't feel good)

I'm like fuck love, fuck life  
I'm a fool for you all day, all night  
You say that you could do better, why don't you try?  
Nevermind how I feel, it's alright

Yeah, and everything that I love, is bad for me and it sucks  
I know I can't make you care

I swear you're so good at making me feel bad  
At making me feel terrible about myself, good  
You're so good at making others hurt with only just your words  
With only just your words

And I feel bad  
I don't feel good  
And I feel bad  
I don't feel good  
I don't feel

I said, you're so good at making me feel bad  
You're like a college grad, that majored in the art of fucking over everythi  
ng we had  
I wanna rip these pictures off the wall and paint them all in black  
My favorite memories of us are ones I wish we never had

And everything that I love is bad for me and it sucks  
I know I can't make you care

I swear you're so good at making me feel bad  
At making me feel terrible about myself, good  
You're so good at making others hurt with only just your words  
With only just your words

And I feel bad  
I don't feel good  
And I feel bad  
I don't feel good  
I don't feel

(And I know)  
(I don't feel good)  
(And I know)  
(I don't feel good, I don't feel)

(I don't feel, I-I-I don't feel)  
(I don't feel, I-I-I don't feel)

Don't feel good, but bad, fucking over everything we had  
Fucking over everything we had  
We had the good, but bad, fucking over everything we had  
Fucking over everything we had
