

# Where Was U?

Blackbear

I ride around hittin' licks  
With this smoke in my lungs  
I swear that once upon a time  
I wasn't trainin' with thugs  
I was out in the A  
Doin' shit, I'm not proud  
Couldn't even tell my mama  
I know she'd have a cow  
Now I'm gettin' this money  
Goin' the legal route  
Born with hustlin' in my blood  
My people out in a drought  
So tell me, where is the love?  
Baby where is the feeling?  
Before I started gettin' money  
People actin' like demons  
Now hold up

Cause I know, I know you see it now  
I know  
I know, I know

Where was you when I was hungry?  
Where was you when I was all alone?  
Where was you when I was lonely?  
Cause now I'm gettin' it and everybody knows  
Everybody knows  
Cause now I'm gettin' it and everybody knows  
So where was you when everybody hated me?  
Cause now I'm gettin' it, I got it on my own  
On my own  
Alone

These commas up on my mind  
Always thinkin' 'bout M's  
Lately I don't gotta try  
This shit just keep comin' in  
I got a safe with my watches  
Watches, snatchers and thieves  
Mama wanted a crib  
I put her out on the beach  
And it got dark for a minute  
Even too dark for myself  
The city took their time with Bear  
I guess they sleepin' on me  
So tell me, where is the love?  
Tell me, where is the feeling?  
Before I started makin' records  
Boy this shit had a ceiling, but hold up

Cause I know, I know you see me now  
You see me now  
And I know

Where was you when I was hungry?  
Where was you when I was all alone?  
Where was you when I was lonely?

Cause now I'm gettin' it and everybody knows  
Everybody knows  
Cause now I'm gettin' it and everybody knows  
So where was you when everybody hated me?  
Cause now I'm gettin' it, I got it on my own  
On my own  
All alone

Yo bro, just wanted to give you a call to update you on these label deals. We have to turn down another one. It is what it is. But you know what I always say: It just has to make sense. And maybe the lane makes no damn sense, so we do like we always do, keep on keepin' on cause these labels just want what we've been building, for so long. Alright?

Where was you when I was hungry?  
Where was you when I was all alone?  
Where was you when I was lonely?  
Cause now I'm gettin' it and everybody knows  
Everybody knows  
Cause now I'm gettin' it and everybody knows  
So where was you when everybody hated me?  
Cause now I'm gettin' it, I got it on my own  
On my own  
All alone
