

Take The Highway

Blackberry Smoke

Take the highway
Lord knows, darlin', don't you know?
[?]
The day you turn around, will I be gone?

And the time will finally come
For me to pack my bags and walk away
Hear me say

I'll be back someday
But darlin' please don't wait for me too long
There's just one place I can't stay
Where memories of your love still lingers on

And the time will finally come
For me to pack my bags and walk away
Hear me say

I'll be back someday
But, darlin', please don't wait for me too long
There's just one place I can't stay
Where memories of your love still lingers on

And the time will finally come
For me to pack my bags and walk away
Hear me say

Take the highway
Take the highway
Take the highway
Take the highway, oh yeah

And the time will finally come
For me to pack my bags and walk away
Hear me say
