

## Train rollin

## Blackberry Smoke

I don't wanna hear it  
I don't wanna hear it  
I been raisin' hell again

I know we've been through it  
I put myself into it  
feel like I might crawl out my skin

I'm so sick and tired  
of being sick and tired  
same old cliché in the end

baby when you kiss me  
you know I'm drinkin' whiskey  
"go to hell, me" all over again

chorus  
I'm a train train rollin'  
rollin over you  
a train train rollin'  
ain't nothin you can do

I don't even know ya  
what makes you think I owe ya  
I got problems of my own

baby in a carriage  
low rent psycho marriage  
feelin I might go all night  
or maybe more

Baby's sick and tired  
of bein' sick and tired  
same old cliché in the end

baby when you kiss me  
you know I'm drinkin whiskey  
"go to hell, me" all over again
