

Bummed Out

Blackfoot

Bummed out, never again, tell ya, I had my share
I've seen noise and racin' colour livin' in my brain
Nerves shatter, unsteady legs, feelin' my way around
It might be where they found Al the other day stretched out on
the ground

Feelin' like I'm gonna die, trapped inside a stare
I hope to God that I wake up but it's only your nightmare
Nerves shatter, unsteady legs, feelin' my way around
It might be where they found Al the other day stretched out on
the ground
I can't take it, oh
