

Feelin' Good

Blackfoot

Ooohh, play it now dog

Well it's saturday night and I'm a feelin' right,
Everything is looking good.
I love that woman that I love so well,
I love her just like I should.

Oohh gonna hit the street, out tonight,
And have myself a good time.
All the people that we'll meet,
Gonna know that you are mine.
Hoppin' bars and drivin' cars,
Settin' myself free.
Burnin' the candle at both ends,
Is the only way to be.
Feelin' good you know I should,
When I look at you.
Feelin' right you know tonight,
I'm so in love with you.

Oohh baby get down.

Oohh feelin' good you know I should,
Uh when I look at you.
Feelin' hot you know tonight,
I'm so in love with yooou.
Well it saturday night and I'm a feelin' right,
Everything is looking good.
I love that woman that I love so well,
I love her just like I should.

Oohh like I should.
