

# In My Heart Of Hearts

BlackHawk

Jenny told Tom that she was leavin'  
Never thought it would come to that  
Can't you almost feel that old ground shake  
All the way from where they're at?

We've had our share of ups and downs  
Words that come out wrong somehow  
But that don't mean a thing 'cause...

[Chorus:]

In my heart of hearts  
What I'm really feelin'  
Is a never-ending love you can believe in  
Girl, you're all that matters  
In my heart of hearts

It wouldn't be love without the hard times  
That's what makes a good love grow  
Feelings are all too often hidden  
Out of sight where they don't always show

Try not to give it a second thought  
Heaven knows just where we are  
In spite of words unsaid 'cause...

[Chorus]

Sometimes in this busy world we share  
I go round and round, like I don't care 'cause...

[Chorus]
