

# All Because of You

Blackmore's Night

Is this happening? Is this fantasy?  
Never did I believe  
There could be such happiness  
Feels like nothing on earth  
Started with one little kiss...  
I could stay in this moment forever  
I could reach every star in the sky  
I could lose myself when I look  
Into your eyes...

Is this happening? Is this fantasy?

All my dreams coming true...  
...all because of you  
I can't believe its true...  
...all because of you...

You are everything I  
Wanted for so many years...  
Goodbye long, lonely nights  
Sadness and thousands of tears

I could stay in this moment forever  
I could reach every star in the sky  
I could lose myself when I look  
Into your eyes...

Is this happening? Is this fantasy?

All my dreams coming true...  
...all because of you  
I can't believe its true...  
...all because of you...

Is this happening? Is this fantasy?

All my dreams coming true...  
...all because of you  
I can't believe its true...  
...all because of you...  
...all because of you...  
...all because of you...  
...all because of you...
