

## Disco in Space

Blake Lewis

I'm lookin up At the lights in the sky  
And all i see is you  
You got the look but Do u know how to fly?  
I'll show you what to do  
Hands up & get down movin yo body around  
Feel the sound get into you  
T-minus 5 & We're ready to go  
Headed higher than the moon

Lets take a ride to infinity  
and lose ourselves while we can  
Lets leave behind the insanity and get this party started  
Cuz it's time to rock it.

The world is dancing, it's Grooving like a disco in space tonig  
ht  
A Galactic party, Surrounded by the stars makes it feel, So ri  
ght  
Everyone shines so bright When we touch the light of the sun  
The sound pushes gravity Away from me  
& the party's just begun Inside our disco in space

Got your attention but Im feening for more  
I love the way you move  
You think your bad when you cut up the floor  
Sexy with your attitude  
Nobody's around & I just wanna get down  
You haven't seen what I can do  
Planets align as our bodies collide  
Baby just enjoy the view

Lets take a ride to infinity  
and lose ourselves while we can  
Lets leave behind the insanity and get this party started  
Cuz it's time to rock it.

The world is dancing, it's Grooving like a disco in space tonig  
ht  
A Galactic party, Surrounded by the stars makes it feel, So ri  
ght  
Everyone shines so bright When we touch the light of the sun  
The sound pushes gravity Away from me  
& the party's just begun Inside our disco in space
