

# This Lonely Road

Blake Lewis

Head in my hands  
The weight of the world's been keeping me down  
I look to the sky for some kind of sign  
Don't misunderstand  
My heart is not a complete ghost town  
There's always some room to keep hope alive

Cause there's a place in the sun for everyone  
To look on the bright side  
Through the ups and downs just look around  
You're not alone

On this lonely road, watch for the signs pointing to the light  
No time to waste, I'm going to choose to let happiness light the fuse  
Nothing to be afraid of  
Gotta keep your head up  
I can't count how many times I've been down  
I've been down this lonely road

Out on the streets  
There's someone trying to survive  
Misunderstood, with no where turn  
Let's do all we can  
To lift each other up in this life  
There's always a lesson to be learned

Cause there's a place in the sun for everyone  
To look on the bright side  
Through the ups and downs just look around  
You're not alone

On this lonely road, watch for the signs pointing to the light  
No time to waste, I'm going to choose to let happiness light the fuse  
Nothing to be afraid of  
Gotta keep your head up  
I can't count how many times I've been down  
I've been down this lonely road
