

# Fall Through

Blaque

I really hope that tonight  
The rain keeps on falling  
I need you to fall through

11:30, can't sleep I need you next to me  
Feeling sexy, wondering, can you come handle me?  
Baby, can't be wasting a night like this, you need  
To call your boys and tell 'em you're hooking up with me

Ooh, I kinda hope  
That tonight the rain keeps on falling, and  
Ooh, I am by the phone  
But your body just keeps on calling me  
Ooh, I can't get it out of my head  
Been waiting all week  
See I was hoping that you would fall through  
I need you to fall through

My heartbeat is racing, I know you want your way, I'm  
Anticipating, your hands around my waist, I'm  
Searching, tasting, do what you wanna do to me  
Tired of waiting (come back to me)

Breathing hard (I keep fogging up my window)  
I'm pressed against it so I can see you  
Getting closer to my door  
And I just want you more

Ooh, I kinda hope  
That tonight the rain keeps on falling, and  
Ooh, I am by the phone  
But your body just keeps on calling me  
Ooh, I can't get it out of my head  
Been waiting all week  
See I was hoping that you would fall through  
I need you to fall through

Come inside, close the door  
See what I have in store for you  
Take a seat, stay a while  
Baby make my love come down now  
The kind of love I wanna give  
Do you think you can handle it?  
Hold me tight and don't let go  
I'm 'bout to lose control  
(What you waiting for?)

Ooh, I kinda hope  
That tonight the rain keeps on falling, and  
Ooh, I am by the phone  
But your body just keeps on calling me  
Ooh, I can't get it out of my head  
Been waiting all week  
See I was hoping that you would fall through  
I need you to fall through

Ooh, I kinda hope

That tonight the rain keeps on falling, and  
Ooh, I am by the phone  
But your body just keeps on calling me  
Ooh, I can't get it out of my head  
Been waiting all week  
See I was hoping that you would fall through  
I need you to fall through

(Ooh, I kinda hope)
