

Found You Out

Bleach

Ain't it great
Not a moment too late
And I been waiting for this all my life
Ain't it swell
Like a sweet southern belle
And I can finally see why I'm alive
When you, you hold me close
It all makes sense its greatness

I've waited a million years to feel
The way that I feel right now
I can't say that its faded out
But everything'll work out somehow
Cause I think I found you out

Ain't it great
Not a moment too late
That worry left and hope arrived
Ain't it fine
Like sweet summertime
And oh its good to be alive
When you, you hold me close
It all makes sense its greatness

I've waited a million years to feel
The way that I feel right now
I can't say that its faded out
But everything'll work out somehow
Cause I think I found you out
Yeah yeah, whoa-oh-oh-oh-oh

I've waited a million years to feel
The way that I feel right now
I can't say that its faded out
But everything'll work out somehow

and I've waited a million years to feel
The way that I feel right now
I can't say that its faded out
But everything'll work out somehow
Yeah everything'll work out somehow
Yeah everything'll work out somehow
Cause I think I found, I finally found you out
