

# The War Around Us

## Bleed from Within

You've laid this deathbed for yourself  
Giving up on everything that never gave in to you  
I thought you would be through with this life

You set a bad example for our youth  
One day they will carry us  
One day they will follow in your footsteps  
Don't give them this life

You set a bad example for our youth  
I'm not afraid of the war around us  
I'm more afraid of the storm inside you  
Living every day like it's your last  
You'll find these are the days that make you believe

Not in a a god but in yourself  
Not in a a god but in yourself  
But you've left yourself behind  
When will you see (the light in) the light in yourself

We've come too far to give up  
And when we're on the right path to change it  
Weight of the world on your shoulders  
Is in your hands (Fuck)

We've been led to believe that you're a fucking mistake  
You're everything we're not supposed to be (I'm not afraid)

I'm not afraid of the war around us  
I'm more afraid of the storm inside you  
Living every day like it's your last  
You'll find these are the days that make you believe

Not in a a god but in yourself  
Not in a a god  
Not in a a god but in yourself

There once lay innocence behind those crooked eyes  
You've laid this deathbed for yourself  
Giving up on everything  
That never gave in to you
