Overcrowded Room

Bleed The Dream

She showed up wearing red She's all inside my head While we were Standing in this overcrowded room

The essence of your eyes Makes me just want to die And I can't stand the way they'll never look at me again I think about you every night And though we couldn't make things right I'm waiting for the time we'll share the same bedroom again

Don't go I'm gonna make you stay with me Till I'm through (Standing in this overcrowded room) And please, make me brand new (Standing in this overcrowded room)

I know you're on my side I know you've doubted once or twice And I don't know if I could be the same person There's something you should know It's so easy for me to say "no" 'cause you're the only one I want to be with in the end
