

Miracles

Blessid Union Of Souls

If you're anything like me
You find yourself taking for granted
Everything you see
Things that we just rush right by most everyday

Like how the sun heats the day
And how it's so far away
And how it just keeps on burning and burning
And what the skies have to say
Can make the rain go away
And how the world keeps on turning and turning

I believe there are miracles all around us
And I'm so happy that one of them found us
Cause there's nothing quite like the beautiful sound of love
Love is a miracle

Can you imagine
What life would be without the presence
Of our children's laughter
These are things that we should hold so dear to our hearts

Instead we're moving so fast
That we just don't look around
We've learned to just keep on going and going but I
I think we've got to slow down
I think there's more to be found
If we just keep on searching and searching

I believe there are miracles all around us
And I'm so happy that one of them found us
Cause there's nothing quite like the beautiful sound of love
Love is a miracle

Love can open a heart
Love can sing a new song
Love can change a million minds and conquer something that's wrong
As for you and me
Love has definitely
Given us reason to know it's a miracle

I believe there are miracles all around us
And I'm so happy that one of them found us
Cause there's nothing quite like the beautiful sound of love
Love is a miracle
