

## My Halo

### Blinded Colony

This very day you'll take a last breath and leave me  
I've scrubbed myself till I bleed  
I cannot make the tiniest mistake, 'cos you'll stab me  
You turn lambs to murderers

What? Who shut the light?  
My halo used to shine all bright! But now...  
I've dug out myself in search of worms way deep inside  
What now?

Clean, I can never be  
Perfection  
I hunt but will never catch  
Hypochondria, I make a monster of myself  
Because of forbidden fruit

What? Who shut the light?  
My halo used to shine all bright! But now...  
I've dug out myself in search of worms way deep inside  
What now?

My halo used to shine
