

Light My Way

Blood On The Dance Floor

I was lost in the dark
Until I flipped the switch inside my head
Now I see who you are
You're a counterfeit, with all the lies you spread

You never know how toxic someone is
Until you breathe in fresher air
And fucked up memories of what we were
But I'm so over it and I don't fucking care

You're cut off I'm letting go
You can't shine with all the shit you throw
I spill the tea out on the floor
You're dead to me, we're never more
You're cut off I'm letting go
You can't shine with all the shit you throw
I spill the tea out on the floor
You're dead to me, we're never more

I don't fuck with you girl
I lay a thousand roses on your casket cause you're dead to me
I don't fuck with you girl
Your air out dirty laundry on your Facebook for your pity party

I burn the bridges down to light my way
I burn the bridges down to light my way
I burn the bridges down to light my way
I burn the bridges down to light my way

I'm tired of all the games you played
You think your so smart, but things just falls apart
And all the stupid words you say
You can't back it up, so why don't you shut up
You put the scissors in my hands
So don't blame me, when I cut you off
I'm not your puppet on a string
You don't own me, you can't control me

You're cut off I'm letting go
You can't shine with all the shit you throw
I spill the tea out on the floor
You're dead to me, we're never more
You're cut off I'm letting go
You can't shine with all the shit you throw
I spill the tea out on the floor
You're dead to me, we're never more

I don't fuck with you girl
I lay a thousand roses on your casket cause you're dead to me
I don't fuck with you girl
Your air out dirty laundry on your Facebook for your pity party
I don't fuck with you girl
I lay a thousand roses on your casket cause you're dead to me
I don't fuck with you girl
Your air out dirty laundry on your Facebook for your pity party

I burn the bridges down to light my way

I burn the bridges down to light my way
I burn the bridges down to light my way
I burn the bridges down to light my way
