

Eye To Eye

Blood Red Shoes

You'll be missing
When you get bored
You never liked to be ignored
Up and down
As he saw
What are you fighting for?

Chain reaction
What do you expect
I can't get in I'm just scared
I'm a cure for
Your heavy heart
Don't break this heart
'Cause we

We don't see
We don't see
We don't see eye to eye

We don't see
We don't see
We don't see eye to eye

Shoot me down
Like I should make a sound
Like there's nothing different
Nothing different now
Did you lose your place
When I wouldn't play your game
So there's nothing different
Nothing different now

I'm so tired
Of being in your space
You say it's my saving grace
Like a fall
Takes so much time
We guess your search went fine
Yeah you got so much
On your plate
But let's get this straight
'Cause we

We don't see
We don't see
We don't see eye to eye

We don't see
We don't see
We don't see eye to eye

Shoot me down
Like I should make a sound
Like there's nothing different
Nothing different
Did you lose your place
When I wouldn't play your game

So there's nothing different
Nothing different now
Make it in the dark
Laying all your cards
Like there's nothing different
Nothing different now
Right next to my side
But we don't see eye to eye
Like there's nothing different
Nothing different now

We don't see
We don't see
We don't see eye to eye
